Abstract. *This article studies features of implementation of such instrument for strategic spatial planning in the Russian Far East as territories of advanced development (TAD). The authors present the stratification of created TAD within subjects of the Far Eastern Federal District and identify prerequisites for TAD creation and its distinctive features. The authors also show features of the formation of TAD in the Far Eastern Federal District in the sectoral context, analyze the performance dynamics of TAD functioning indicators, and identify leaders and outsiders in achieving planned targets in terms of investment and number of provided jobs. As well, the role of foreign investors and results of their activities in the development of the Russian Far East within TAD are determined. The factors hindering functioning and development of TAD in the Russian Far East in general and in the Khabarovsk Territory in particular are identified. The authors of the article summarize the results of the nine-year period of functioning of TAD in the Russian Far East, define strategic guidelines for regional development. The effects of functioning of TAD of the Khabarovsk Territory are presented, the structure of funding sources is analyzed, functioning problems and obstacles are identified.*

Keywords: *Far East, strategic territorial development, territories of advanced development, efficiency of functioning of territories of advanced development*
